CYLINDER KIT

EVOX

Thanks to the experience gained over the years in the motorcycle sector, **EVOX** has developed a range of products that are **characterized by reliability and quality**.

The important work of the Research&Development department is reflected in all product categories, such as cylinders, pistons, rings and bearings. **Piaggio, Honda, Yamaha, BMW, Triumph, Sym and Derbi** are just some of the motorcycle manufacturers included in the range of applications for **EVOX** items.

Always updated and constantly evolving, **EVOX** develops its offer by focusing on the Italian and European market.

All **EVOX** components are subjected to **accurate quality controls**, from production to packaging, to ensure compliance with the **quality standards of the original spare part**.

- 2 In our B2B: motorcycle -> brand -> Evok

CYLINDER KIT PACKAGING

The special polyurethane foam packaging is one of the distinctive elements of the brand, in order to guarantee protection and practicality to all EVOX products.

All cylinder kits are packaged directly in our warehouse, checking every single product and making sure of their integrity and quality.

SIDE COMPARTMENT

It protects in the best way gaskets, seeger and pin.

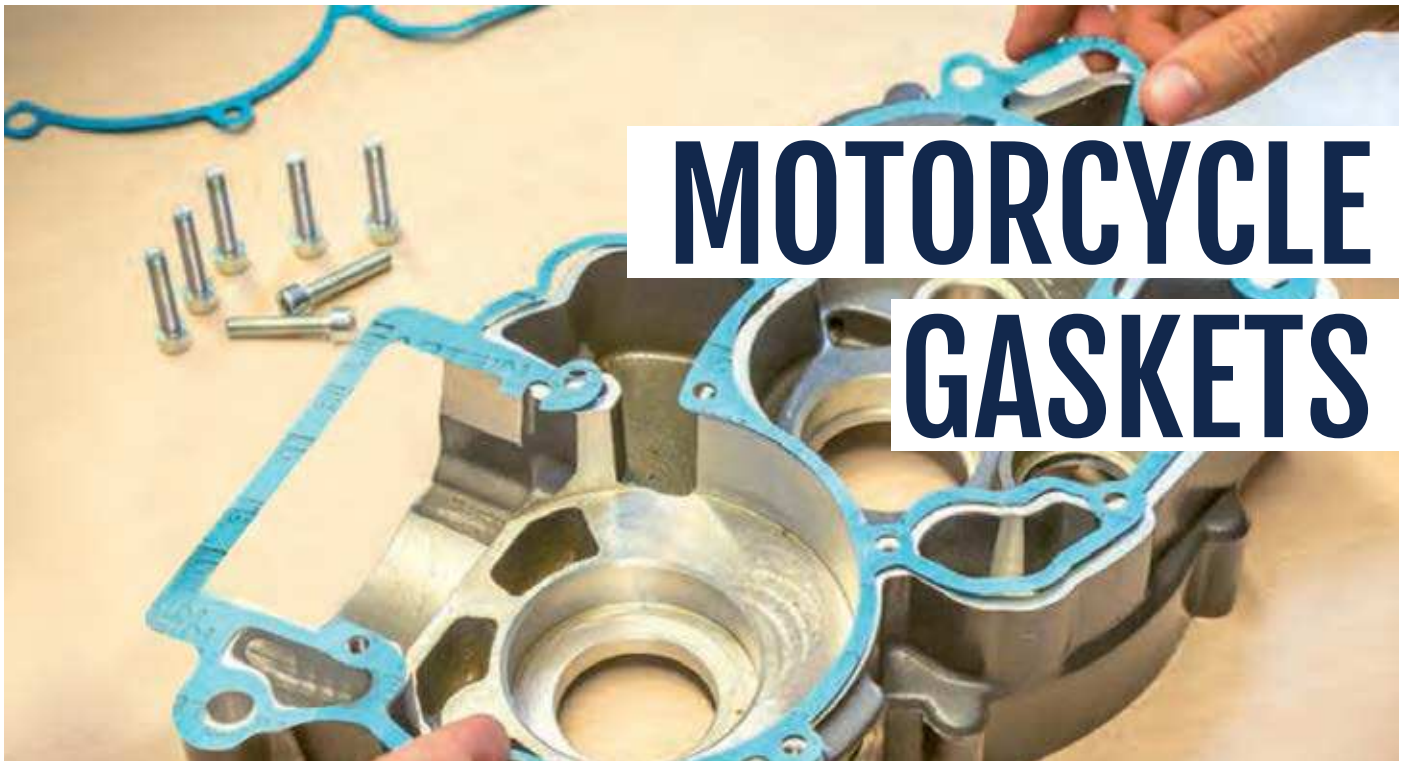

CENTRAL COMPARTMENT

Appropriately shaped, minimizes movement of the cylinder.

SPARK PLUG INCLUDED

Kits marked with this logo include the spark plug.

- 2 In our B2B:
motorcycle -> seal -> gaskets

Artein Gaskets, with a production of more than 5 million gaskets, is one of the most important European players in the sector and has been distributed by RMS since 2019.

Through collaboration with the OEM, Aftermarket and Motorsport market, the Spanish company has managed to develop a wide range of gaskets for both **motorcycles and scooters (from 50cc to maxi scooters) and for vintage motorcycles.**

All products have a very high quality thanks to the **constant development of new technologies**, the use of innovative materials and control at all stages, from production to marketing.

COMPLETE KIT

COD. RMS: 10 069 XXX0

COD. CLASSIC: 10 069 15XX

Complete engine gasket set:

Carter
Stator
Reducer group
Oil pump
Base and cylinder head
Valve cover
Chain tensioner
O-ring set

TOP-END KIT

COD. RMS: 10 069 XXX1

Engine gaskets series:

Base and cylinder head
Valve cover
Chain tensioner
O-ring set

SINGLE SEALS

COD. RMS: 10 069 XXXX

Single seals for:

Stator
Reducer group
Oil pump
Base and cylinder head
Valve cover

GASKET SHEETS

COD. RMS: 10 069 2XX0

Thanks to the single sheets you have maximum freedom of action with the possibility of building the gaskets you need!

Kit: gasket sheet kit with the same dimensions and different thicknesses.

Single sheet: all the thicknesses present in the kits can be purchased individually, size 350x450mm.

Available materials: paper, pressed paper, graphite, thermal insulation, cork-nbr, rock wool.

FACTORY QUALITY

WHAT DOES IT MEAN?

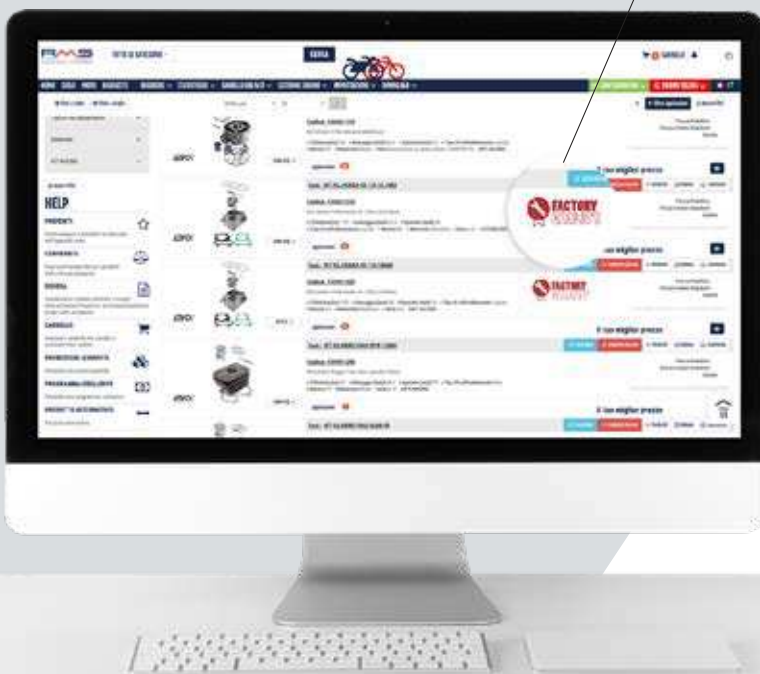

You will find several products indicated with the logo and the words FACTORY QUALITY.

What does it mean?

All FACTORY QUALITY products come from the same companies that manufacture items for the original equipment market. This is synonymous with:

HIGH AND GUARANTEED QUALITY

CHARACTERISTICS AND COMPATIBILITY EQUAL TO ORIGINAL SPARE PARTS (OEM)

THE RANGE

The **FACTORY QUALITY** range is **constantly updated** and is dedicated to all types of vehicles (scooters, motorcycles and Vespa). Inside we find different types of components such as:

Thermal units, sensors, fuel pumps, mirrors, transmission parts and electrical components.

WE IMPROVE THANKS TO YOUR CONTRIBUTION!

Within this section you will find some of the most important products developed and improved by our team **thanks to your feedback!**

Your reports are constantly analyzed and implemented by the technical department.

This allows us to have an accurate control of the quality of the distributed products, **also managing to intervene and solve the individual problems, as well as satisfying the main requests of the market.**

**DO YOU HAVE FEEDBACK
ABOUT OUR PRODUCTS?**

Send them to: info@rms.it

CRANKSHAFT SH

COD. RMS: 10 001 0520

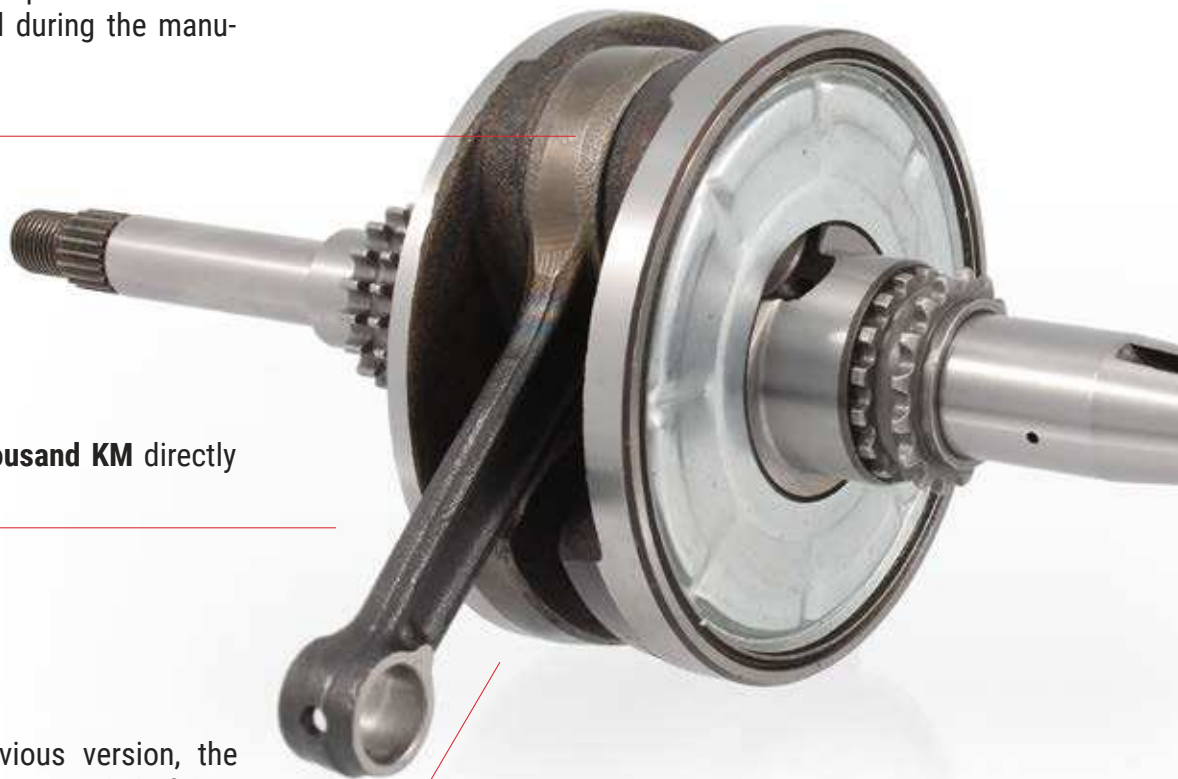

A new crankshaft for Honda SH has recently been added to the catalog, thus solving the problems encountered in the previous model.

The new partner made it possible to satisfy both the sought-after qualities and the necessary certifications: we were able to include a reliable product with an excellent quality/price ratio in the range.

The manufacturer guarantees particular attention to the various parts and to the type of materials used during the manufacturing process.

Tested for over **15 thousand KM** directly in RMS.

Compared to the previous version, the connecting rod of this new crankshaft has received a **surface hardening treatment**, improving the mechanical properties of strength and bending.
