## CLEANSE

Carry out a first cleansing with **Refill Shampoo** to remove all the impurities and detox hair. Rinse, then carry out a second cleansing to release the volumizing and strengthening properties. Massage well to activate the foam.  
Rinse thoroughly.

## TREAT

Towel-dry hair. **Mix Refill 1 + Refill 2** to get a soft cream. Make a cross-shaped parting and work on each area taking locks with a thickness of 1-2 cm. Then apply the cream using a soft bristle brush, starting 1 cm from roots up to the lengths. Massage well with hands, then comb and **leave it on 5 to 10 minutes**, for very thin or treated hair. Rinse.

## REFILL

**Leave it on for 10 minutes under a heat source** to enhance the restructuring, densifying effect. Then cool it for 5 minutes and rinse thoroughly.

## VOLUMIZE

For a frequent treatment, use **Refill Instant Spray Densifier** vaporizing evenly on all hair. During the resting time, massage well on lengths and tips with a rotational movement to favor the penetration of the product.
