THE REVOLUTIONARY
LAMELLAR-DISCIPLINE
TREATMENT FOR
HAIR, BOTH FOR
PROFESSIONALS AND
AT HOME.

Lamellar-discipline treatment for dull, brittle and exhausted hair.

It works on the outside of hair, protecting it from hydration loss, mechanical damages, thermal tools and daily attacks.

It springs into action in 10 minutes on washed hair
and it is boosted during the styling.

ONCARE Super is the fast, easy and immediate lamination, with an extra-liquid texture, which films the hair structure with a thin lamellar layer. Mainly made of vegetal keratin, oils and gelatin, it leaves hair soft and regenerated, with a mirror-effect shininess without weighing hair down. Long-lasting benefits.

WRAP

Distribute **ONCARE Super** on lengths and tips carefully, massage lock by lock to favor the distribution and the effect of active ingredients, comb and **leave on 10 minutes at most**. To further intensify the lamellar-discipline treatment, leave the product on under a heat source, wrapping hair with a turban. Rinse thoroughly and proceed with styling, without using any Balms.

OVERDO

On blond and straight hair, finish the styling with a hair straightener. Heat will create a Super light on lengths. For harder hair, it is recommended to use aluminum foils on the plates of the hair straightener and use it slowly from the roots to the tips, working on **2cm wide locks at most**.
